

## Helius Medical Technologies, Inc. Reports Second Quarter 2023 Financial Results

August 10, 2023 8:06 PM EDT

-- Total Q2 revenue up 115% over prior year; 131% over Q1 2023 --  
-- Company to host call at 4:30pm today --

NEWTOWN, Pa., Aug. 10, 2023 (GLOBE NEWSWIRE) -- Helius Medical Technologies, Inc. (Nasdaq:HSDT) ("Helius" or the "Company"), a neurotech company focused on delivering a novel therapeutic neuromodulation approach for balance and gait deficits, today announced results for the quarter ended June 30, 2023.

### Second Quarter and Recent Business Updates

- Q2 2023 revenue of \$256 thousand, compared to \$119 thousand in Q2 2022, an increase of 115%; up \$145 thousand compared to Q1 2023, or 131%.
- Operating cash burn of \$2.7 million in Q2 2023 decreased by \$0.9 million compared to Q2 2022.
- Expanded stroke trial at the Medical University of South Carolina (MUSC) from 12 to 60 patients. The trial is designed to evaluate the effects of cranial-nerve non-invasive neuromodulation (CN-NINM), delivered using PoNS Therapy™, on gait and dynamic balance in chronic stroke survivors and is an important step toward pursuing United States Food and Drug Administration (FDA) authorization for stroke in the U.S.
- Added Montefiore Medical Center to the PoNS® Therapeutic Experience Program (PoNSTEP), a multi-center, company-sponsored, open label observational interventional trial to evaluate the impact of adherence to PoNS Therapy in patients with multiple sclerosis (MS).
- PoNS device awarded Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) accreditation by The Compliance Team (TCT), which is authorized by the Centers for Medicare & Medicaid Services (CMS) to accredit all DMEPOS products and services – an important milestone towards reimbursement by CMS.
- Patient Therapy Access Program (PTAP) concluded on June 30, 2023. PTAP enabled qualified Americans with MS to have early access to PoNS Therapy™ at a significantly reduced price, while the Company initiated efforts to pursue reimbursement by third party payers and CMS.
- Established an at-the-market (ATM) offering program, under which the Company may offer and sell shares having an aggregate offering price of up to \$2.0 million, providing Helius the ability to access additional cash opportunistically, and on an as-needed basis.

"We saw a significant increase in sales during the second quarter of 2023, with revenue up 115% over the second quarter of 2022, and up 131% compared to the first quarter of 2023. This growth was due in part to patients purchasing PoNS prior to the expiration of PTAP at the end of June. We were pleased by the success of PTAP in creating access to PoNS in the early stages of our U.S. launch," said Dane Andreeff, President and Chief Executive Officer of Helius.

"Going into the second half of the year, securing CMS and third-party payer reimbursement remains the Company's chief objectives. Through PTAP we added important health economic information to our MS patient registry, which will help establish the value of PoNS on key clinical and therapeutic outcomes. In June, PoNS was awarded DMEPOS accreditation, a necessary step for Medicare coverage. With these critical components of our U.S. reimbursement strategy in place as well as a growing number of sites offering PoNS Therapy and a healthy balance sheet, we are well on our way toward achieving our goals in 2023 and beyond," concluded Andreeff.

### Second Quarter 2023 Financial Results

Total revenue for the second quarter of 2023 was \$256 thousand, an increase of \$137 thousand compared to \$119 thousand in the second quarter of 2022, resulting from increased U.S. sales of PoNS systems under the favorable pricing offered through the PTAP, which terminated on June 30, 2023.

Cost of revenue increased to \$184 thousand for the three months ended June 30, 2023, compared to \$88 thousand for the comparable period in 2022, primarily attributable to higher sales compared to the same period in the prior year.

Selling, general and administrative expenses for the second quarter of 2023 were \$2.6 million, comparable to the \$2.5 million reported in the second quarter of 2022.

Research and development expenses for the second quarter of 2023 decreased to \$0.7 million, compared to \$1.0 million in the second quarter of 2022, driven primarily by a decrease in product development expenses and clinical trial activities as the Company transitioned to U.S. commercialization activities.

Total operating expenses for the second quarter of 2023 decreased to \$3.3 million, compared to \$3.5 million in the second quarter of 2022.

Operating loss for the second quarter of 2023 decreased \$0.2 million to a loss of \$3.2 million, compared to an operating loss of \$3.4 million in the second quarter of 2022.

Net loss was \$1.6 million for the second quarter of 2023, compared to a net loss of \$3.8 million in the corresponding prior year period. The basic and diluted net loss per share for the second quarter was \$0.06 per share, compared to a net loss of \$0.97 per share for the second quarter of 2022.

### **Cash and Liquidity**

Cash used in operating activities for the three months ended June 30, 2023 was \$2.7 million, a decrease of \$0.9 million compared to the second quarter of 2022, reflecting the results of our focus on managing cash burn and extending our cash runway further into 2024.

As of June 30, 2023, the Company had cash of \$8.6 million, compared to \$14.5 million as of December 31, 2022.

The Company had no debt outstanding as of June 30, 2023.

### **Third Quarter and Near-Term Guidance**

The Company currently expects third quarter 2023 and full year 2023 revenue to be above comparable periods in the prior year with a shift in sales mix to be more heavily weighted to Canada, offsetting an anticipated decrease in the U.S following the end of the PTAP. Future U.S. sales of PoNS are expected to be at our cash-pay price until we gain reimbursement by CMS and third-party payers.

### **Conference Call**

As previously announced, management will host a conference call as follows:

Date: Thursday, August 10, 2023

Time: 4:30 p.m. Eastern Time

Register (Audio Only): [Click Here](#)

Webcast: [Click Here](#)

The webcast will be archived under the Newsroom section of the Company's investor relations website.

### **About Helius Medical Technologies, Inc.**

Helius Medical Technologies is a leading neurotech company in the medical device field focused on neurologic deficits using non-implantable platform technologies that amplify the brain's ability to compensate and promotes neuroplasticity, aiming to improve the lives of people dealing with neurologic diseases. The Company's first commercial product is the Portable Neuromodulation Stimulator (PoNS). For more information, visit [www.heliusmedical.com](http://www.heliusmedical.com).

### **About the PoNS Device and PoNS Therapy**

The Portable Neuromodulation Stimulator (PoNS) is an innovative orally-applied, non-implantable medical device, inclusive of a controller and mouthpiece, which delivers electrical stimulation to the surface of the tongue to improve balance and gait. The PoNS device is indicated for use in the United States as a short-term treatment of gait deficit due to mild-to-moderate symptoms from multiple sclerosis ("MS") and is to be used as an adjunct to a supervised therapeutic exercise program in patients 22 years of age and over by prescription only.

PoNS is also authorized for sale in Canada for three indications: (i) for use as a short-term treatment (14 weeks) of chronic balance deficit due to mild-to-moderate traumatic brain injury ("mTBI") and is to be used in conjunction with physical therapy; and (ii) for use as a short-term treatment (14 weeks) of gait deficit due to mild and moderate symptoms from MS and is to be used in conjunction with physical therapy; and (iii) for use as a short-term treatment (14 weeks) of gait deficit due to mild and moderate symptoms from stroke, to be used in conjunction with physical therapy. PoNS is also authorized for sale in Australia for short term use by healthcare professionals as an adjunct to a therapeutic exercise program to improve balance and gait. For more information visit [www.ponstherapy.com](http://www.ponstherapy.com).

### **Cautionary Disclaimer Statement**

Certain statements in this news release are not based on historical facts and constitute forward-looking statements or forward-looking information within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and Canadian securities laws. All statements other than statements of historical fact included in this news release are forward-looking statements that involve risks and uncertainties. Forward-looking statements are often identified by terms such as "believe," "expect," "continue," "will," "goal," "aim" and similar expressions. Such forward-looking statements include, among others, statements regarding the Company's expected results for the Company's business and financial performance in 2023, the sufficiency of the Company's future cash position, the development, commercialization and success of the Company's PoNS device and related treatment, and the Company's strategic operating plans.

There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those

expressed or implied by such statements. Important factors that could cause actual results to differ materially from the Company's expectations include uncertainties associated with the Company's capital requirements to achieve its business objectives, disruptions in the banking system and financial markets, lingering impacts of the COVID-19 pandemic, the effect of macroeconomic conditions and the Company's ability to access capital markets, the Company's ability to train physical therapists in the supervision of the use of the PoNS Treatment, the Company's ability to secure contracts with rehabilitation clinics, the Company's ability to obtain national Medicare coverage and to obtain a reimbursement code so that the PoNS device is covered by Medicare and Medicaid, the Company's ability to build internal commercial infrastructure, secure state distribution licenses, build a commercial team and build relationships with Key Opinion Leaders, neurology experts and neurorehabilitation centers, market awareness of the PoNS device, availability of funds, manufacturing, labor shortage and supply chain risks, our ability to maintain and enforce our intellectual property rights, clinical trials and the clinical development process, the product development process, the regulatory submission review and approval process, our operating costs and use of cash, and our ability to achieve significant revenues, ongoing government regulation, and other risks detailed from time to time in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2022, and its other filings with the United States Securities and Exchange Commission and the Canadian securities regulators, which can be obtained from either at [www.sec.gov](http://www.sec.gov) or [www.sedar.com](http://www.sedar.com).

The reader is cautioned not to place undue reliance on any forward-looking statement. The forward-looking statements contained in this news release are made as of the date of this news release and the Company assumes no obligation to update any forward-looking statement or to update the reasons why actual results could differ from such statements except to the extent required by law.
