

Helius Medical Technologies, Inc. to Present at the Planet MicroCap Showcase on April 21st

April 15, 2021 12:00 PM EDT

NEWTOWN, Pa., April 15, 2021 (GLOBE NEWSWIRE) -- Helius Medical Technologies, Inc. (Nasdaq:[HSDT](#)) (TSX:[HSM](#)) ("Helius" or the "Company"), a neurotech company focused on neurological wellness, today announced that management will participate in the Planet MicroCap Showcase, which is being held virtually from April 20th-22nd. Management will present on Wednesday, April 21st at 8:30 a.m. Eastern Time.

A live audio webcast of the conference presentation will be available under the 'Events' section of the Helius Medical Technologies investor relations website at <https://heliusmedical.com/index.php/investor-relations/events/upcoming-events>. An archive of the webcast will be available following the conference.

About Helius Medical Technologies, Inc.

Helius Medical Technologies is a neurotech company focused on neurological wellness. The Company's purpose is to develop, license and acquire unique and non-invasive platform technologies that amplify the brain's ability to heal itself. The Company's first commercial product is the Portable Neuromodulation Stimulator (PoNS™). For more information, visit www.heliusmedical.com.

About the PoNS™ Device and PoNS Treatment™

The Portable Neuromodulation Stimulator (PoNS™) is an innovative non-surgical medical device, inclusive of a controller and mouthpiece, which delivers mild electrical stimulation to the surface of the tongue to provide treatment of gait deficit and is indicated for use in the United States as a short term treatment of gait deficit due to mild-to-moderate symptoms from multiple sclerosis (MS) and is to be used as an adjunct to a supervised therapeutic exercise program in patients 22 years of age and over by prescription only. The PoNS device is authorized for sale in Canada as a class II, non-implantable, medical device intended as a short term treatment (14 weeks) of gait deficit due to mild and moderate symptoms from MS, and chronic balance deficit due to mild-to-moderate traumatic brain injury (mTBI) and is to be used in conjunction with physical therapy. The PoNS device is an investigational medical device in the European Union ("EU") and Australia ("AUS"). It is currently under premarket review by the AUS Therapeutic Goods Administration.
